CLAIMS ADMINISTRATOR'S REPORT

Lessons Learned from Losses - December

Mr. Roselli stated that the *Lessons Learned from Losses* was included in the agenda packet.

Mr. Roselli stated that the focus for this month is Subrogation. He noted that subrogation is the right of the JIF to pursue an at fault party after a claim payment is made by the JIF. The JIF ultimately makes the decision regarding subrogation recoveries when the offer is less than 100%. He noted that the JIF can only subrogate for loss payments made and cannot pursue file relates expenses. He noted that there are a few things the towns can do to help with subrogation:

• Be careful not to waive subrogation in AIA documents when undertaking a construction project.

- Supply Qual-Lynx with the Police Report ASAP so they can request restitution be ordered in municipal court.
- Save surveillance videos, in-car mobile videos, faulty equipment or anything that has caused injuries or damages.
- · Save contracts, certificates of insurance and indemnity agreements.

He also noted that Qual-Lynx suggests taking all damaged vehicles back to the town's DPW yard or other owned facility. If it is repairable, the repairing shop will pick it up and likely not charge for the towing and storage. If it is totaled, then the vehicle will be taken by the highest bidder for the salvage; however, the facility where it is being stored will charge for initial towing and storage.

Mr. Roselli asked if there were any questions at this time. No questions were entertained.

WELLNESS DIRECTOR'S REPORT

Ms. Schiffer noted that her report is detailed in the agenda packet. She highlighted the following:

- Wellness Connection Newsletter for December, 2016 was included in the agenda packet as well as being posted to the JIF website.
- HERO Program will be ending soon and she is hoping to get some feedback from those who participated from Wrightstown, Palmyra and North Hanover. She hopes the feedback will bring opportunities to improve the program and offer it to other interested municipalities.
- She noted that every town with an available balance encumbered their funds from the Wellness Program for this year. She noted some ideas: chair massages, purchasing lunchboxes and water bottles, gift cards, reimbursement towards wellness services or products and rewards for the "Maintain Don't Gain" program.

Ms. Schiffer asked if there were any questions at this time. No questions were entertained.

Resolution No. 2017-03

Appointing Professional Staff

Whereas, the Commissioners of the Burlington County Municipal Joint Insurance Fund find that it is necessary and appropriate to obtain certain professional and other extraordinary and unspecifiable services pursuant to NJSA 40A:11-5 et seq.; and

Whereas, it is anticipated that some of these services will exceed \$17,500 in cost to the Fund during the 2017 Fund Year; and

Whereas, after careful consideration by the Fund Commissioners of the Burlington County Municipal Joint Insurance Fund it has been determined to be in the best interest of the Fund to obtain these services following a "non fair and open" process pursuant to NJSA 19:44A-20.1 et seq. so as to eliminate the possibility of any of the Fund's professionals from making reportable contributions to any elected officials in any member town and so as to guarantee the continuity of the Fund's professionals; many of which have been servicing the Fund since its inception and have directly contributed to its success; and

Whereas, those service providers whose contracts shall exceed \$17,500 during the 2017 Fund Year have executed a "Political Contribution Disclosure Form", "Business Entity Disclosure Certification", and a "Stockholder Disclosure Certification", a copy of which is attached to their Professional Service contract, acknowledging their understanding that by accepting this appointment they may be limited pursuant to NJSA 19:44A-20.6 in their ability to make reportable contributions pursuant to NJSA 19:44A-15 as detailed in NJSA 19:44A-20.5

4.) The amount of unpaid claims to be established.

- a.) The general reserving philosophy is to set reserves based upon the probable total cost of the claim at the time of conclusion. Historically, on claims aged eighteen (18) months, the Fund expects the claims servicing company to set reserves at 85% accuracy. The Fund also establishes reserves recommended by the Fund's actuary for claims that have been incurred but not yet reported so that the Fund has adequate reserves to pay all claims and allocated loss adjusted expense liability.
- b.) Claims reserves are subject to regular review by the Fund's Executive Director/Administrator, Attorney, Executive Committee and claims servicing company. Reserves on large or unusual claims are also subject to review by the claims departments of the commercial insurance companies or reinsurance companies providing primary or excess coverages to the Fund.
- 5.) The method of assessing contributions to be paid by each member of the Fund.

- a.) By November 15th of each year, the actuary computes the probable net cost for the upcoming Fund year by line of coverage and for each prior Fund year. The actuary includes all budget items in these computations. The annual assessment of each participating municipality is its pro rata share of the probable net cost of the upcoming Fund year for each line of coverage as computed by the actuary.
- b.) The calculation of pro rata shares is based on each municipality's experience modified manual premium for that line of coverage. The Fund's governing body also adopts a capping formula which limits the increase of any member's assessment from the preceding year to the Fund wide average increase plus a percentage selected by the governing body. The total amount of each member's annual assessment is certified by majority vote of the Fund's governing body at least one (1) month prior to the beginning of the next fiscal year.
- c.) The treasurer deposits each member's assessment into the appropriate accounts, including the administrative account, and the claim or loss retention trust fund account by Fund year for each type of coverage in which the member participates.
- d.) If a local unit becomes a member of the Fund or elects to participate in a line of coverage after the start of the Fund year, such participant's assessments and supplement assessments are reduced in proportion to that part of the year which had elapsed.
- e.) The Fund's governing body may by majority vote levy upon the participating municipalities additional assessments wherever needed or so ordered by the Commissioner of Insurance to supplement the Fund's claim, loss retention or administrative accounts to assure the payment of the Fund's obligations. All supplemental assessments are charged to the participating municipalities by applicable Fund year, and shall be apportioned by the year's assessments for that line of coverage.
- f.) Should any member fail or refuse to pay its assessments or supplemental assessments, or should the Fund fail to assess funds required to meet its obligations, the chairman or in the event by his or her failure to do so, the custodian of the Fund's assets, shall notify the Commissioner of Insurance and the Director of Community Affairs. Past due assessments shall bear interest at the rate established annually by the Fund's governing body.

h.) The Fund has adopted a loss sensitive retrospective rating plan and has filed the endorsement with the Department of Banking and Insurance and the Department of Community Affairs.

6.) <u>Procedures governing loss adjustment and legal expenses.</u>

- a.) The Fund engages a claims service company to handle all claims, except for the JIF's POL/EPL Volunteer D&O and Cyber Liability insurance which is handled by Summit Risk Services representing QBE North America for EPL/POL and XL Insurance for Cyber Liability. The performance of the claims adjusters is monitored and periodically audited by the Executive Director's office, the Fund attorney, the MEL's attorney's office, as well as the claims department of the MEL's three major liability insurers/re-insurers [i.e. General Re and Munich Re for excess liability, and Safety National for workers' compensation]. Every three years, the MEL's internal auditors also conduct an audit.
- b.) Each member local unit is provided with a claims reporting procedure and appropriate forms.
- c.) In order to control workers' compensation medical costs, the Fund has the Fund has established an approved medical list and all injured employees are required to utilize this panel.
- d.) To provide for quality defense and control costs, the Fund has established an approved defense attorney panel with firms which specialize in Title 59 matters. The performance of the defense attorneys is overseen by the Fund attorney, as well as the various firms which audit the claims adjusters.
- e.) The pursuit of subrogation is important to the member and the JIF because successful recoveries replenish the loss funds thereby benefitting a members' loss history and the ultimate JIF results.

Therefore:

- 1. All requests for abandonment of subrogation, reduction of subrogation claims, and for execution of releases shall be reviewed by the Burlington County Municipal Joint Insurance Fund Claims Review Committee at its next regularly scheduled meeting, except for subrogation claims that are valued at less than ONE THOUSAND (\$1,000.00) DOLLARS; and
- 2. As to all subrogation claims less than **FIVE HUNDRED** (\$500.00) **DOLLARS**, after the Claims

Administrator has exhausted all avenues for collection of the subrogation claim, the claim shall be referred to Claims Supervisor who shall review the claim and provide a list of those claims and dollar amounts being waived to the Fund Administrator of the Burlington County Municipal Joint Insurance Fund; and

- 3. As to all subrogation claims greater than **FIVE HUNDRED** (\$500.00) **DOLLARS** but less than **ONE THOUSAND** (\$1,000.00) **DOLLARS**, after the Claims Administrator has exhausted all avenues for collection of the subrogation claim, the claim shall be referred to the Fund Solicitor who shall review the claim and provide a list of those claims and dollar amounts being waived to the Fund Administrator of the Burlington County Municipal Joint Insurance Fund; and
- 4. For all subrogation claims of **ONE THOUSAND** (\$1,000.00) **DOLLARS** or more, the Claims Review Committee shall review such claims and provide a recommendation to the Executive Committee of the Burlington County Municipal Joint Insurance Fund at their next regularly scheduled meeting; and
- 5. The Executive Committee shall review the recommendations of the Claims Review Committee, the Claims Administrator, and the Fund Solicitor and determine whether to ratify the recommendations and said action will be noted in the meeting minutes via the claim number of the appropriate claim; and
- 6. If the recommendation is for the execution of a Release and the Executive Committee ratifies that recommendation, the Burlington County Municipal Joint Insurance Fund's Chairperson and Secretary shall be authorized to execute the Release by Resolution.

7.) <u>Coverage to be purchased from a commercial insurer, if any.</u>

The Fund does purchases commercial insurance for the POL/EPL, Volunteer D&O, and Cyber Liability coverage which is purchased from XL Insurance and QBE North America.

8.) Reinsurance to be purchased.

The Fund does not purchase reinsurance.

19

9.) <u>Procedures for the closure of Fund years, including the maintenance of all relevant accounting records.</u>

- a.) The Fund utilizes the Municipal Excess Liability Residual Claims Fund (RCF) to facilitate the closure of Fund years.
- b.) Upon the transfer of outstanding liabilities of a Fund year to the RCF, the Fund adopts a resolution closing that year and transfers all remaining assets to the closed Fund year account. This amount is allocated by member local units using the same procedure as is used to calculate a dividend. Each month, interest is credited to the closed Fund year account by member.
- c.) Each year, the Fund's governing body will determine if a dividend is appropriate from the closed Fund year account, and will make application to the Department of Insurance as appropriate. Further, in the event an open Fund year incurs a deficit, the Fund's governing body will consider an inter-year transfer from the closed Fund year account to offset the deficit. In either case, the dividend or inter-Fund year transfer will be calculated on a member by member basis.
- d.) A member may apply to the Fund's governing body for a return of that member's remaining share of the closed Fund year account when five (5) years have passed since the last Fund year in which the member participated has been closed. The Fund's governing body will decide on the former member's request after evaluating the likelihood of any additional assessments from the RCF.
- e.) All dividends from the RCF will be deposited in the closed Fund year account on a member by member basis.
- f.) The Fund will retain all records in accordance with the Fund's record retention program.

10.) Assumptions and Methodology used for the calculation of appropriate reserves requirements to be established and administered in accordance with sound actuarial principles.

a.) The general approach in estimating the loss reserves of the Fund is to project ultimate losses for each Fund year using paid and incurred loss data. Two traditional actuarial methodologies are used: the paid loss development method and the incurred loss development method. From the two different indications resulting from these methods the Fund Actuary chooses a "select" estimate of ultimate losses.

Subtraction of the paid losses from the select ultimate losses yields the loss reserve liability or funding requirement.

- b.) The following is an overview of the two actuarial methods used to project the ultimate losses.
 - O Paid Loss Development Method This method uses historical accident year paid loss patterns to project ultimate losses for each accident year. Because this method does not use case reserve data, estimates from it are not affected by changes in case reserving practices. However, the results of this method are sensitive to changes in the rate of which claims are settled and losses are paid, and may underestimate ultimate losses if provisions are not included for very large open claims.
 - Case Incurred Loss Development Method This method is similar to the paid loss development method except it uses historical case incurred loss patterns (paid plus case outstanding reserves) to estimate ultimate losses. Because the data used includes case reserve estimates, the results from this method may be affected by changes in case reserve adequacy.

11.) The maximum amount a certifying and approving officer may approve pursuant to N.J.A.C. 11:15-2.22.

- Property Claims \$5,000 of Authority
- Workers Compensation Claims \$10,000 of Authority
- Liability Claims \$5,000 of Settlement Authority; \$10,000 of legal and file expense Authority
- The Executive Committee reviews all Payment Authorization Requests, (PARs) where the total cost of a claim will exceed the Authority noted above, and review litigation strategies with the Fund's Attorney.
- Prior to each Executive Committee Meeting, the certifying and approving officer shall prepare a report that lists the payments on claims where the total expense to date is less than the Authority levels noted above that were approved by the certifying and approving officer since their last report. At a minimum, the report shall include the name of the payee, claim number, affected member, amount paid, reason for payment, and other pertinent information required to substantiate payment. The report shall be provided to the Executive Committee at their regular meeting for their review and approval.

- In situations where the payment of an allocated file expense on a workers compensation file that has been approved for closure will cause the total cost of the claim to exceed the Authority previously granted, the certifying and approving officer may pay that cost without seeking further approval from the Executive Committee.
- In urgent situations where the Executive Committee has not had an opportunity to meet, and where time is of the essence such that an expeditious response to a settlement offer would be in the Fund's best economic interest, the Fund Attorney, in consultation with the Executive Director and the Executive Committee Chair, shall have the authority to authorize the settlement of claims within the JIF's SIR. All such authorizations shall be reported to the Executive Committee as soon as possible and shall be approved at their next meeting.
- In urgent situations where the Executive Committee has not had an opportunity to meet, and temporary total disability benefits are due to a claimant and delaying payment of these benefits would have a detrimental impact on the claimant, the Executive Director, in consultation with the Fund Attorney, and the Executive Committee Chair, shall have the authority to authorize the payment of temporary total disability benefits to the claimant at an amount not to exceed \$5,000 over what had been previously authorized. All such authorizations shall be reported to the Executive Committee as soon as possible and no later than the Committee's next meeting and shall be approved at their next meeting.
- Upon submission of satisfactory documentation, and with the advance approval of the Executive Director, the Certifying and Approving Officer may also pay hospital bills if waiting until after the next regularly scheduled FUND meeting would result in the loss of a discount on such bills. When the Certifying and Approving Officer utilizes this authority, a report shall be made to the Executive Committee at their next meeting for their approval.

12.) **Operational Philosophy**

General - As is the case with any organization, an established
operating philosophy, formalized in a document such as this, is a
necessary precursor to success. This section of the Risk Management
Plan is developed to provide general instruction for key areas and
providers of service to the Fund. Also included here are sections
which restate (and amplify) the roles and responsibilities of important
parties and stress the importance of activities upon which the long
term success of the Fund will hinge in whole or in part.

☐ Fund Commissioners - Fund Commissioners, each an elected official or municipal employee, are the backbone of the Fund. These

individuals will in large measure control the success of the Fund by actively participating in the safety and loss control programs developed by the Fund for all members, and by implementing these programs in their respective municipalities. Fund Commissioners are encouraged to attend all meetings of the Fund, to serve on committees studying current issues, to enhance their knowledge of risk management, and to encourage consistent safe practices.

- Fund Professionals and Risk Management Consultants Providers of professional services (Fund Professionals and Risk Management Consultants) to the Fund and individual member municipalities are strongly encouraged to participate in and promote Fund activities. The success of the Fund will, in part, be a reflection of the professionalism of those providers whose services are integral components of the Fund. Support of the concept of self-insurance, the Fund in general, and the risk management activities of member municipalities in particular are necessary elements of success.
- □ The Fund Bylaws require each member municipality to provide for the services of an individual or firm to serve as the member's Risk Management Consultant and who shall serve as an Insurance Producer as defined under N.J.S.A. 17:22, and shall have demonstrated experience in the management of public sector insurances and risk management. The Risk Management Consultant shall not be an employee of the member. The Risk Management Consultant shall not be a Fund Commissioner.
- ☐ The Risk Management Consultant shall advise the member on matters relating to the Fund's operation and coverages. The Risk Management Consultant shall, in addition to such items as may be included in such individual's or firm's contract or agreement with the member, be governed by the following:
 - a) The Risk Management Consultant shall be retained by each member in conformance with applicable State Law or regulation;
 - b) Risk Management Consultants, who can not be local unit employees, shall be paid a fee not exceeding six (6%) percent of the member's assessment in accordance with the terms of the Risk Management Consultant's Agreement executed by the member; and
 - c) Specific responsibilities shall include, but not be limited to:
 - i.) Evaluation of the member's exposure;
 - ii.) Explanation of the various coverages available from the Fund:
 - iii.) Preparation of applications, statements of values, timely reporting of changes in exposures, and any other exposure

based questionnaires and/or applications requested by the Fund:

- iv.) Review of the local unit's assessment and assistance in preparing the member's insurance budget;
- v.) Review and analysis of the member's safety engineering reports and periodic loss runs in order to help the member identify areas requiring greater attention;
- vi.) Assist the member in establishing, monitoring and evaluating a safety committee and claims handling procedure;
- vii.) Attend the majority of meetings of the Fund's Executive Committee; and
- viii.) Analyze and recommend insurance coverages not offered through the Fund.
- ☐ <u>Claims Response And Reserving</u> Were the philosophy of the Fund in these areas to be encapsulated into two sentences, they would read as follows:
 - a.) "The Fund will thoroughly review and respond to each claim presented so as to pay only that amount (if any) which it is legally bound and obligated to pay."; and
 - b.) "Reserves shall be established on each claim presented in a manner which accurately reflects the full, known liability of the Fund at any given point in time".

In reviewing each claim presented, the Fund (operating through its claims administrator and legal counsel) shall review such claims for coverage, deny those not falling within the purview of coverages offered, aggressively defend those in dispute, pursue to the fullest extent of the law those presented in bad faith, and settle as expeditiously as possible those for which the Fund is legally liable.

- Case reserves, including all types of applicable allocated loss adjusting expenses, will be established with an eye toward identifying the full exposure of the Fund and its excess insurance carriers at the earliest possible date. Reserves shall be periodically reviewed for accuracy and adjusted as needed. For claims aged eighteen (18) months or more, it is expected that reserves will be not less than 85% accurate. For claims aged thirty (30) months or more 95% accuracy is expected.
- ☐ <u>Financial Management</u> Consistent with the objective of serving as a long term vehicle through which to stabilize the costs associated with insurance coverages, the underlying premise of the

Fund's financial base shall be one of conservative up-front funding, prudent investment of idle funds, and maintenance of stringent paper and audit trails. As is the case with all other aspects of the Fund, the financial assets of the Fund can well be considered as moneys held in public trust. Treatment and handling of these Funds must be accomplished in a manner which reflects the stewardship obligation of those whose hands through which they pass. All actuarial, investment, treasury and banking functions of the Fund are to be accomplished in a manner consistent with the same legal and administrative standards applicable to municipalities in the State of New Jersey.

Specific steps taken by the Fund during past years to enhance return on equity include:

- a.) implementing more favorable payment terms with various service providers so as to increase investment income;
- b.) Development and adoption of a Cash Management and Investment Policy which seeks the following objectives:
 - i.) Preservation of capital,
 - ii.) Adequate safekeeping of assets,
 - iii.) Maintenance of liquidity to meet operating needs, claims settlements, and dividends,
 - iv.) Diversification of the JIF's portfolio to minimize risks associated with individual investments,
 - v.) Maximization of total return, consistent with acceptable risk levels,
 - vi.) Investment of assets in accordance with State and Federal laws and regulations,
 - vii.) Accurate and timely reporting of interest earnings, gains and losses by line of coverage in each fund year,
 - viii.) Cooperation with other local JIFs and the MEL in the planning and execution of investments in order to achieve economies of scale,
 - ix.) Stability in the value of the JIF's economic surplus.
- Safety And Loss Prevention Every dollar spent to compensate for an avoidable loss, whether it be for property, workers' compensation or any other coverage afforded through the JIF, is a dollar which might better have been used to provide municipal

services and conserve tax dollars. In an effort to avoid preventable loss and the financial and human hardships which result therefrom, the JIF (operating through the Fund's Safety Committee) will implement safety and loss control programs and procedures, directed at reducing or eliminating conditions or practices which lead to loss. These programs, implemented in progressive steps, will include items such as:

- a.) Member facility self-inspections supplemented by those conducted by the Fund's Safety Director;
- b.) Seminars or other training programs directed at specific areas of municipal operations from which losses are likely to occur;
- c.) Promotional safety incentive programs stressing safety in all areas of municipal operations and offering incentives for active participation by all Fund members.

13.) Aggregate Excess Loss Contingency Fund

In November of 1996, the Department of Banking and Insurance adopted administrative codes for municipal joint insurance funds like the BURLCOJIF, reference N.J.A.C. 11:15-2.1 et. seq. One aspect of these new regulations is the requirement that joint insurance funds either buy aggregate excess insurance or budget additional money to be collected from the members in an aggregate excess loss contingency fund. The spirit of this portion of the administrative code is to provide even greater fiscal security to joint insurance funds than the security provided through the funding of loss retention accounts based upon an independent actuarial loss funding model.

The members view this requirement as supporting their primary objective to stabilize costs. The history of the Fund is to purchase aggregate excess insurance whenever possible to protect against a series of losses. However, the Fund has also observed that this is not always possible and has instead budgeted an additional amount of money as loss fund contingency in those years when aggregate excess insurance was either not available or too costly to consider. For the members, the Aggregate Excess Loss Contingency Fund is simply a new name for an established practice and the BURLCOJIF will continue its practice of budgeting extra money in the absence of commercially available aggregate excess insurance but will now refer to these monies as the <u>Aggregate Excess Loss Contingency Fund</u>.

The administrative code defines the Aggregate Excess Loss Contingency Fund as a separate fund which is always accounted for in the current fund fiscal year. The monies are set aside for a period of at least two years to pay for claim activity that exhausts loss funds in a claim retention account in the original fund year in which the monies were set aside. The code

also defines the minimum statutory funding for this aggregate loss fund account and specifically states that nothing in the law shall prevent a joint insurance fund from funding this account at a higher level. Both the statute and administrative code governing the BURLCOJIF also require that any surplus and/or deficit in every retention account for each year is owned by the members who were a part of that year according to the percentage that their individual total contribution bears to the budget in that year. Contributions made to the Aggregate Excess Loss Contingency Fund are no different in this regard.

However, the Aggregate Excess Loss Contingency Fund is different than other loss retention accounts in two fundamental ways; the manner in which the BURLCOJIF must account for the funds and its use across all years by individual members. Because the Aggregate Excess Loss Contingency Fund moves from the current fiscal year forward to the succeeding fiscal year in its entirety and the statutory minimum funding associated with a specific fund fiscal year must be retained for a minimum of two years, this fund must always be accounted for on an individual member basis showing both a member's statutory encumbered portion and their statutory unencumbered portion.

As discussed above, the Aggregate Excess Loss Contingency Funds are intended to provide an immediate response to the need to replenish money in a loss fund account where the original loss funding has been consumed. It is also true that over time if the value of the projected ultimate cost of claims within a loss retention account as defined by the claims administrator added to the Incurred But Not Reported (IBNR) values developed by the actuary do not exceed the original loss funding within a loss retention account after two years, the administrative code permits but does not mandate a full return of those aggregate excess loss contingency funds to their member owners. Thus, the aggregate excess loss contingency funds that are surplus and not yet returned can be used by members to pay for additional money needs in any fund year when and if needed. This provides members with the opportunity to accrue surplus aggregate excess loss contingency funds and use them across all fund years in much the same way they have used the Loss Fund Contingency money in earlier budgets as a safeguard across multi-line retention accounts in a given fund fiscal year.

In this regard, the Aggregate Excess Loss Contingency Fund is in part a protection against adverse development for both specific retention accounts as well as providing protection on a multi-year and multi-line loss basis.

The administrative code specifically permits a member to use released surplus funds in loss retention accounts to either take them in the form of a return of surplus or to be applied toward the payment of a future premium. As the unencumbered portion of the Aggregate Excess Loss Contingency

Fund is an individual member owned surplus account, members with accrued surplus in this account can likewise use these funds in the same way.

Finally, the BURLCOJIF views the Aggregate Excess Loss Contingency Fund as a better version of the old Loss Fund Contingency. We believe it provides a stronger vehicle through which members can build a financial bank against adverse development on a multi-year and multi-line basis. It is the hope of the BURLCOJIF that members will use this fund to provide themselves with a financial vehicle through which they can manage an additional assessment with no cost to their municipality or pay future insurance premiums to stabilize costs, or both.

- (3) Review, prior to the annual audit, the scope and general extent of the independent auditor's planned examination, including their engagement letter. - needs. Inquire of the independent auditor whether there have been any disagreements with the Executive Committee that, if not satisfactorily resolved, would have caused them to issue a nonstandard report on the JIF's financial statements.
- (8) Discuss with the independent auditor the quality of the JIF's financial and accounting personnel and any recommendations that the independent auditor may have. Topics to be considered during this discussion include improving internal financial controls, controls over compliance, the selection of accounting principles and the Executive Committee reporting systems.

- (11) Perform all of the above duties wherever appropriate relative to the JIF's component units. The Executive Committee may satisfy this duty by relying on the work of a component unit's Finance Committee.

Administrative Policies & Procedures

Date Adopted: April 17, 2007_

POLICY: Conference Attendance

PURPOSE: To Establish a Protocol for Attendance at Various Training Conferences

It is the practice of the Burlington County Municipal Joint Insurance Fund (BURLCO JIF) to encourage the further education of its members in Risk Management issues by providing a limited number of Fund Commissioners an opportunity to attend various industry conferences during a Fund Year. These conferences include those offered by Public Risk Management Association (PRIMA) and the Association of Government Risk Insurance Pools (AGRIP).

Because the Fund affords a limited number of Fund Commissioners an opportunity to attend this conference, and it is possible that more Commissioners may wish to attend a conference than positions are available, it is important that the Fund have a procedure establishing clear guidelines and preferences for Commissioner attendance. Each fall, the Finance Committee shall prepare the annual Conference budget and set forth the number of available openings for conference attendance the following year.

ANNUAL PRIMA CONFERENCE

The following procedure shall be followed in determining the Fund Commissioners who will attend the **Annual PRIMA Conference**:

- 1. **Executive Committee Members** At the beginning of each year, the Executive Director's office shall notify members of the Executive Committee of the opportunity to attend the Annual PRIMA Conference. Members shall be given a deadline to respond. Attendees will be determined based upon their date of response on a first come first served basis.
- 2. **Alternate Executive Committee Members** If after the deadline has passed, additional positions remain open, an invitation shall be extended to the Executive Committee Alternates. Responses to the invitations must be received no later than February 1st. Attendees will be determined based upon their date of response on a first come first served basis.
- 3. **Fund Commissioners** In the event that positions to attend the Annual PRIMA Conference remain open after invitations have been extended to the Executive Committee members and Alternates, the Executive

Page 2 of 3

Director's Office shall announce at the February Executive Committee meeting the opportunity for remaining Fund Commissioners to attend the conference with a response deadline of March 1st. Attendees will be determined based upon their date of response on a first come first served basis.

No additional announcements regarding opportunities to attend the annual PRIMA Conference shall be made after the February Executive Committee meeting.

AGRIP CONFERENCE

The following procedure shall be followed in determining the Fund Commissioners eligible to attend any of the **AGRIP Conferences**.

- 1. In January of each year, the Executive Director's office shall notify in writing the members and alternate members of the Executive Committee, as well as the Chairs of the Standing Sub Committees, of the AGRIP Conferences scheduled for the Fund Year requesting that each Commissioner notify the Executive Director's office in writing of any of the conferences they would like to attend. If more than one conference is requested, preference must be indicated by the individual.
- 2. The Executive Director's office shall keep track of the date of, number of, and specific AGRIP conference that the Commissioners wish to attend along with the date they responded.
- 3. In the event that more Fund Commissioners ask to attend a conference than positions available, priority shall be given in the following order:
 - Fund Chair
 - Fund Secretary
 - Executive Committee members in their order of succession
 - Alternate Executive Committee members in their order of succession
 - Committee Chairs
- 4. Priority among the Committee Chairs who are not Executive/Alternate Executive Committee members shall be determined based on the date of their response. However, further priority shall be given to the above individuals who are not scheduled to attend a conference during the current Fund Year.
- 5. Due to the AGRIP Conferences being held periodically during the year, the Executive Director's office shall send reminders of upcoming conferences to the members and alternate members of the Executive Committee, as well as the Chairs of the Standing Sub Committees, of upcoming conferences and any available positions to attend these conferences.
- 6. In the event that funded positions for attendance at the Spring AGRIP Conference are unused, additional members may attend one or more of the remaining AGRIP Conferences as long as the total number of attendees does not exceed that which is budgeted for the Fund Year.

CONFERENCE REIMBURSEMENT GUIDELINES

- 1. Each attendee at the PRIMA conference shall be eligible for up to \$1,750 in reimbursable expenses. Reimbursable expenses are defined in the Fund's *Travel & Reimbursement Policy* adopted by the Fund at its Annual Reorganization meeting.
- 2. Prior to receiving a final reimbursement from the Fund, attendees at each conference shall provide the membership, at the next Executive Committee meeting following their return, with a summary report of the seminars they attended. Any written materials that the attendee brings from the conference shall be made available to the Executive Director's office for copying and distribution to any Fund Commissioner upon their request.

RE: Disclosure Statement

Risk Management Consulting and Fund Administration

Arthur J. Gallagher Risk Management Services, Inc has served as Administrator for the Burlington County Municipal Joint Insurance Fund, hereinafter referred to as "Fund", since January 1, 1991. The Public Entity Practice within our firm presently confines its practice to providing professional administration, brokerage, and consulting service to large individual and pooled public entity self-insureds.

The Brokerage Division of our firm provides a full range of conventional insurance sales and service, including personal and commercial property, casualty, and employee benefits. In the past, our firm has provided Risk Management Consulting Services to individual municipalities having membership in joint insurance funds administered by Arthur J. Gallagher Risk Management Services, Inc.

The purpose of this disclosure memo is to publicly advise the Officers, Executive Committee, and Commissioners that AJG Risk Management Services, Inc. fulfills the roles of Fund Administrator and in some cases, members' Risk Management Consultant. In the case of this Fund, AJG Risk Management Services, Inc. does not presently serve as Risk Management Consultant for any member municipalities.

Beginning January 1, 2011, Arthur J. Gallagher Risk Management Services, Inc. began placing Employment Practices Liability and Public Officials Liability coverage for the Fund. Beginning on January 1, 2012, Arthur J. Gallagher Risk Management Services, Inc. began placing Volunteer Directors and Officers Insurance for the Fund. Finally, beginning January 1, 2013, Arthur J. Gallagher Risk Management Services, Inc. began placing Cyber Liability Insurance for the Fund. In this capacity, we are compensated at a rate of 3.25% of written premiums for placing Employment Practices Liability, Public Officials Liability, and Volunteer Directors and Officers coverage and 2.50% of written premiums for placing Cyber Liability Insurance for the Fund. Paul J. Miola of Arthur J. Gallagher Risk Management Services, Inc. also serves as the Deputy Executive Director of the MEL Residual Claims Fund and as the Producer for the placement of Excess Insurance for the Municipal Excess Liability Joint Insurance Fund.

The only revenue derived from the Burlington County Municipal Joint Insurance Fund is the fee that we are paid under contract to provide administrative services and the above referenced insurance placement to the Fund.

The Fund Secretary has been asked to incorporate this memo into the minutes of the January Reorganization meeting and make it a permanent record of the Fund.

Employer Defeats ADA Law Suit For Alleged Improper Requirement of Fitness Examination

John H. Geaney

December 15, 2016

ADA

0 Comments

Fitness for duty examinations must meet a standard of being job related and consistent with business necessity. If the employer does not have enough to meet this standard, the employer may be sued for discrimination under the ADA for improperly requiring a fitness examination. The employer in *Painter v. Illinois Department of Transportation*, 2016 *U.S. Dist. LEXIS* 94940 (D. III. July 21, 2016) addressed the issue of meeting the job-related standard by obtaining detailed statements from coemployees supporting the need for a fitness examination.

Deanna Painter was assigned to a position of Office Administrator at Traffic Safety, which was part of a division of the Illinois Department of Transportation (IDOT). The initial problem concerned an incident involving plaintiff and a co-worker where plaintiff loudly accused the co-worker of prank calling her in the Spring of 2011. Plaintiff was put on administrative leave at that time. An investigation of this incident led to other employees preparing written statements regarding what they witnessed. These statements were given to the IDOT fit-for-duty physician, Dr. Fletcher, who then made a decision whether there was a basis for a fitness examination.

Dr. Fletcher read the statements and determined that a fitness exam was needed. He found plaintiff fit for duty but recommended a reevaluation in 45 days. Around the same time, other employees surfaced and described other incidents involving plaintiff. Seven more employees wrote statements, describing how the plaintiff would have frequent outbursts and would walk around the office while talking to herself. Some expressed fears for their own safety. Two or three employees insisted on being escorted by security guards to their cars at the end of the day because they feared that plaintiff would approach them in the parking lot while she was on leave.

Interestingly, plaintiff admitted in her deposition that she had issues with 11 employees in the Traffic Safety area. The statements from this new group of employees were given to Dr. Fletcher, who again saw plaintiff for a fitness examination but recommended that she see a psychologist, Dr. Karen Lee. After seeing plaintiff, Dr. Lee decided to take plaintiff as her personal patient, thereby creating a conflict of interest and preventing her from informing the employer of her views.

On September 26, 2011, plaintiff returned to work but in the Day Labor division of IDOT as an office administrator. Her supervisor noticed that she was making logs of actions of co-employees and conversations with co-employees and reprimanded her for this. Plaintiff said that she was creating the logs in order to document everything so that she could figure out why she had been placed on leave. Her supervisor pointed out that none of the people in Day Labor had been involved in her situation in Traffic Safety.

Employer Is Entitled to Reimbursement of Lien Even If Comp Case Is Ultimately Found Not Compensable Her new co-workers began to complain about plaintiff's behavior. Her supervisor also complained that she was sending him emails in the middle of the night that were nonsensical. Plaintiff was again put on administrative leave on November 23, 2011. Two employees prepared statements that said they feared for their safety. Plaintiff again went for a fitness exam and was again authorized to return to work. After returning to work, plaintiff sent an email to her union representative stating: "for the record, the clock in the small conference room being set to 4:30 PM when it was only 4:00 PM – that is a tell-tale sign for me. It told me everything I needed to know. Thanks." Plaintiff included a smiley-face emoticon with this email. The union rep responded that he did not understand the reference and thought the battery was dead. Plaintiff responded, "Something's dead alright – however, I prefer to be 'a lady' and not say what I think is dead." This email was treated by IDOT and the Illinois State Police as a threat.

Plaintiff was again placed on administrative leave and sent for a fitness examination, This time she was found to be psychiatrically unfit for duty as a result of paranoid thinking, Plaintiff's own psychiatrist disputed this finding. Plaintiff sued and alleged that she was improperly required to attend fitness examinations. She later became employed with the Illinois Department of Human Services.

The federal court ruled for the employer stating that there was ample reason to require the fitness examinations: "The record establishes that prior to each leave and subsequent exam, multiple employees raised concerns about the Plaintiff's behavior in the workplace. A number of employees felt unsafe around the Plaintiff. Certain employees did not want to be alone around her and some were afraid to walk to their cars at night. The Plaintiff shouted at her co-workers, talked in a fast-paced manner and talked to herself at times. The Plaintiff's supervisors considered the employees' statements and their own interactions before determining that Plaintiff was a security risk to the other employees."

The case is interesting because it shows how careful the employer in this case was in documenting the basis for the fitness examination. The care which the employer took was clearly warranted, and the result was that the employer easily defeated plaintiff's ADA law suit.

Misconceptions About IMEs In New Jersey Workers' Comp

John H. Geaney

December 21, 2016

Compensability

0 Comments

There are a number of misconceptions about the rules on independent medical examinations. Several provisions in the New Jersey Workers' Compensation Act are helpful in clarifying these misconceptions:

- Misconception One: An employer must set up an IME in the county where the employee resides. Section 19 states that an IME may be arranged at any reasonable location within the state. There is no limitation to the employee's county of residence.
- Misconception Two: An employee may have his lawyer present during the examination. Section 19 states than an employee only has the right to have his or her personal physician present.
- Misconception Three: An employee may apply for mileage for travel to an IME. There is no statute or rule in New Jersey which requires that employers pay mileage for IMEs, even to those who travel from out of state back to New Jersey.
- Misconception Four: An employee cannot object to an IME performed by a physician of the opposite sex. Section 68 states that where a physical examination is taking place, an employee may request an exam by a physician of the same sex. If such a request is made, the statute says that the employer "shall" comply.
- Misconception Five: An employer is limited to only one IME during the case. Section 19 states that an employee may be required to attend an examination "as often as may be reasonably requested."
- Misconception Six: An employee is entitled to one missed IME before benefits are stopped. Section 19 states that during the period that the employee refuses to participate in attending examinations, the employer can terminate all workers' compensation benefits.
- Misconception Seven: An employer can make a voluntary offer within 26 weeks of MMI or return to work but the percentage of the offer must correspond to the estimate of the defense IME. Case law makes clear that an employer is not required to limit the bona fide or voluntary offer to the same percentage as respondent's IME. In fact, there is no requirement at all that an IME be done for an employer to make a voluntary offer of partial permanent disability.

Employer Is Entitled to Reimbursement of Lien Even If Comp Case Is Ultimately Found Not Compensable • Misconception Eight: After an IME, the physician must provide a copy of the report to the injured worker. The rules of the New Jersey Medical Society make clear that there is a difference between a patient and an examinee. An independent medical examination occurs when there is no expectation of treatment and therefore no doctor/patient relationship. In that case, the injured worker is an examinee, not a patient, and has no right to a copy of the report that the defense IME expert prepares for the employer or carrier. The report is the property of the employer/carrier. During litigation of a formal claim petition, the parties must exchange independent medical exams at the pretrial stage of the case.

On December 15, 2016, a decision following trial in New Jersey was handed down on the question of whether medical marijuana can be ordered under workers' compensation. Petitioner Andrew Watson worked for 84 Lumber and was injured on November 6, 2008. He received an award of one third of partial total in 2012 apportioned 50% of the hand and 12.5% for complex regional pain syndrome (CRPS). The terms of the settlement required respondent to approve ongoing pain management treatment with Dr. Peter Corda. Petitioner received prescriptions on a monthly basis, including 120 Endocet/Oxycodone tablets as well as other pain medications such as Ibuprofen 800mg and lidocaine patches.

In late 2013 petitioner consulted with Dr. Corda about participating in New Jersey's medicinal marijuana program (MMP). Dr. Corda referred petitioner to his partner, Dr. Jeffrey Drew Polcer, who possessed the required credentials to do medical marijuana evaluations. Petitioner saw Dr. Polcer and complained of burning pain and swelling in his left hand with extreme sensitivity to light touch. He said that his narcotic medications were not providing him with sufficient relief. Petitioner admitted to Dr. Polcer that he had experimented with marijuana and obtained a significant reduction in pain.

Dr. Polcer diagnosed petitioner with neuropathic and complex regional pain syndrome of the left hand and recommended petitioner for medicinal marijuana. He noted that neuropathic pain is one of the better indications for medicinal marijuana. He further said that if successful with medicinal marijuana, petitioner should lower his use of narcotics.

The New Jersey Department of Health issued an Attending Physician Statement to the Petitioner which authorized petitioner to register for the MMP and purchase one ounce of marijuana per month for three consecutive months. Petitioner received his Patient Registration Card and then used the card to purchase medicinal marijuana at authorized dispensaries, making his first purchase on March 28, 2014. Petitioner submitted the invoices and proof of cash payments to the respondent's carrier for reimbursement, but the carrier denied reimbursement.

Petitioner filed an Emergent Motion to Enforce the terms of the Order Approving Settlement from 2012. The respondent disputed Dr. Corda's referral to his partner and contended Dr. Polcer was not an authorized physician. Respondent also withdrew authorization of Dr. Corda in favor of Dr. Morris Antebi, who was asked to perform an IME of petitioner.

Employer Is Entitled to Reimbursement of Lien Even If Comp Case Is Ultimately Found Not Compensable

The Judge of Compensation, the Honorable Ingrid L. French, A.S.J.W.C., preliminarily entered an order requiring respondent to reinstate authorization of Dr. Peter Corda for pain management. Trial then ensued on the central issue regarding medical marijuana as curative treatment.

Drs. Corda and Polcer refused to testify at trial because they had ongoing business relationships with the respondent's third party administrator. Instead, petitioner offered the testimony of Dr. Edward Tobe, Board Certified in Neurology and Psychiatry. Respondent had petitioner examined by Dr. Morris Antebi, whose report supported the position of respondent. However, Dr. Antebi also refused to testify and therefore his report was excluded from evidence. Respondent tried to offer into evidence three explanatory letters written by Dr. Corda to the third party administrator in response to a request for explanation on his initial referral and Dr. Polcer's recommendations. These three letters were written subsequent to Dr. Corda's initial referral to Dr. Polcer for the MMP and tended to undercut Dr. Corda's initial position in the case, but the trial judge would not allow these reports to go into evidence without Dr. Corda's testimony, which he refused to provide.

Dr. Tobe testified that Dr. Polcer's plan to begin a course of medicinal marijuana was medically appropriate. He added that this plan made particular sense since it would lead to a reduction in the use of opiates. Dr. Tobe discussed the risks in using Percocet (oxycodone) in respect to kidney and liver function. He said narcotics impact alertness, concentration, memory, and cognitive function, potentially causing emotional detachment. In addition, possible side effects are loss of teeth, blurred vision, constipation, urinary retention and cardiac problems.

Concerning medical marijuana, Dr. Tobe said that the medicinal version is not tainted with contaminants that street marijuana might contain. He said that one is less likely to have cravings with the medicinal product. He did not agree that medicinal marijuana is a gateway drug, although he did admit that marijuana can have similar side effects as opiates in respect to withdrawal, impaired concentration and loss of memory. In his view, medicinal marijuana offers promising prospects as a pain management modality.

Based primarily on the testimony of Dr. Tobe, Judge French found that petitioner's trial use of medical marijuana was medically warranted. She concluded, "While the Court is sensitive to the controversy surrounding the medicinal use of marijuana, whether or not it should be prescribed for a patient in a state where it is legal to prescribe it, is a medical decision that is within the boundaries of the laws in the State of New Jersey. In this case, there is no dispute that all of the credible evidence presented confirms that this Petitioner is an appropriate candidate for New Jersey's medical marijuana program."

An equally significant aspect of this case had to do with respondent's challenge to the referral by Dr. Corda to Dr. Polcer. The judge focused on the issue of whether a respondent has a right to object to a referral from the authorized doctor to another physician. "Whether it is a second opinion directed by a Respondent/Carrier or a referral to an alternative specialty directed by an authorized doctor, this Court interprets the statutory language as requiring an analysis that focuses on whether the referral is in the best interest of the injured worker."

The Court acknowledged that Dr. Corda failed to discuss his recommendation of Dr. Polcer with the respondent/carrier or obtain pre-approval for the referral. "Medical experts must be given sufficient latitude in directing the care of an injured worker. Here, the Court will not allow the respondent to deny authorization of a treatment, which has now proven to be beneficial to the Petitioner, simply because the doctor did not allow the Respondent an opportunity to second guess his medical opinion."

Workers Compensation

Workers' Compensation The Judge entered an order requiring respondent to pay for the costs of the medical marijuana program and prescriptions and ordered respondent to authorize either Dr. Corda (who since became licensed to participate in the MMP) or Dr. Polcer for petitioner's ongoing participation in New Jersey's MMP.

This case is not binding on other courts because it is a Division level decision. Nonetheless, this decision will be studied by other judges and practitioners given that there are few trial decisions in New Jersey on the use of medicinal marijuana for workers' compensation treatment. Respondent could not prevail in this case because defense counsel never offered any expert testimony to rebut the opinions of Dr. Tobe. The failure to produce expert testimony put respondent at an impossible disadvantage and all but guaranteed that Dr. Tobe's testimony would carry the day on the issue of the reasonableness and necessity of medical marijuana. Based on the evidence presented, the Judge of Compensation made the only decision she could make. The most compelling evidence in favor of petitioner was that the use of medical marijuana would decrease the use of narcotics.

This case is also extremely useful in dealing with an often litigated issue of whether respondent is bound by a referral from the authorized doctor to another physician. The 2012 court order in this case only referred to treatment by Dr. Corda. Interestingly, the Court did not focus on the basic rule of agency, namely that a principal is bound by the actions of his or her agent. Rather, the Court addressed the rule in Benson v. Coca Cola to the effect that the Court can make a retroactive analysis of the alleged "unauthorized treatment" to determine whether the treatment should be ordered. The rule under Benson is that if the treatment proves helpful, that fact would strongly favor a conclusion that respondent must pay for it. In this case, the only evidence presented at trial (Dr. Tobe's testimony) supported petitioner's position that medical marijuana helped relieve petitioner's pain levels.

Re: Elected Officials Seminar

It is time once again to extend an invitation to the JIF Elected Officials for this year's training program. This year's program will focus on public official's liability; specifically, land use matters, as well as employment practices liability and ethics. The goal of this training is to make our Elected Officials aware of the potential impact of their actions on their municipality, and potential personal exposure, while acting in official capacity.

As in the past, the New Jersey Municipal Excess Liability Joint Insurance Fund (MEL) will reduce each member's 2017 MEL Loss Funding by \$250 for each municipal Elected Official who completes the course by May 1, 2017. This credit is also extended to the member's CEO (i.e. municipal manager/administrator). The maximum credit for each member is 25% of the member's 2017 MEL workers' compensation loss funding assessment.

The schedule of local Elected Official's training seminars is listed below. You are welcome to attend any of the sessions listed. To register, please complete the attached form and return it to Sheila Ortiz at our office.

Locally, the dates & location of this training is as follows:

Registration for all seminars is 5:30 PM - 6:00 PM. Seminars are from 6:00pm - 8:00 pm

Safety Director Bulletin

One in a series of safety bulletins from your Joint Insurance Fund

December 2016

Managing Slip & Fall Risks During Winter Months

During the winter months exposure to slip and falls greatly increases due to weather conditions such as freezing rain, snow and ice. Public agencies in New Jersey must plan to protect their workers and visitors from slipping on icy surfaces. This bulletin offers suggestions for a comprehensive program to minimize the hazards to employees, residents, and visitors.

The goal of an effective inclement weather plan is to remove snow and ice from all walking surfaces and incorporate continuous surface monitoring and removal at critical times such as work start, at shift change, and when melting and refreezing occurs. Plans should be in writing and reviewed at the conclusion of every snow season. Pay special attention to common trouble spots such as parking areas, sidewalks, stairs and ramps. About one third of all slips on icy surfaces occur in parking areas.

If contractors are used, verify they have the proper levels of insurance. Work with your Risk Manager so that the necessary Certificates of Insurance and Hold Harmless certificates are on file. Agencies should walk the areas to be cleared with contractors to identify features such as curb lines and speed bumps, drainage, etc. and plan how and where snow and ice will be controlled.

Investigate pre-treatments and anti-icing agents. The science of chemical agents and delivery methods is always evolving. Evaluate guidance on anti-icing product effectiveness, temperature use, advantages and disadvantages, environmental impact, and cost per coverage area when making a determination.

Use the same planning process if agency employees will be responsible for snow and ice control. We recommend using a site plan to designate areas for cleaning and should include curbs, fire hydrants, speed humps, walkways and other items. This also facilitates updating your plans.

When possible, roof downspouts should be directed into underground drains versus being directed onto walkways, driveways, or other walking surfaces that could freeze.

Frequently inspect the parking area and sidewalks for:

- o Lighting well illuminated areas permit greater visibility to avoid icy areas
- o Drainage melt that cannot drain to sewers or grass will become ice when it refreezes
- O Dislocated / damaged items curbs, wheel blocks and similar items are frequently moved or damaged by plows, making new and unfamiliar hazards to users

Also remember that getting in and out of vehicles is one of the most frequent types of slip and fall exposures. Inspect vehicles to be sure step treads, running boards, and grab bars are all in good condition.

This bulletin is intended for general information purposes only. It should not be construed as legal advice or legal opinion regarding any specific or factual situation. Always follow your organization's policies and procedures as presented by your manager or supervisor. For further information regarding this bulletin, contact your Safety Director at 877.398.3046.

Consider these best practices:

- Monitor weather forecasts. Do not be caught unaware of impending winter weather.
- When possible, parking lots should be barricaded and completely plowed and treated before permitting vehicles to park. This will prevent patches of ice between vehicle which present an ongoing slip and fall hazard to employees and visitors as they must climb over them when entering and exiting vehicles.
- Plan where to pile snow. Subsequent melting-refreezing cycles can create icy patches.
 - o Do not block drains and downspouts
 - o Pile on the low side of walkways so run-off does not flow across paths of travel
 - o Do not create obstacles to pedestrian access areas such as bus stops, fire exits
 - o Utilize grassy areas so run-off is absorbed into the ground
- Talk to employees often about your commitment to preventing slip and fall injuries. Encourage them to report icy conditions and other concerns. Publically acknowledge and thank those who do. Consider establishing a slip-trip-fall prevention committee during winter months to focus on these hazards.
- Discuss footwear with employees. Does your policy permit reasonable exceptions to office shoes for icy conditions? For employees who must work outside, there are many add-on devices to improve traction. Any employee clearing snow and ice should be encouraged to wear such devices. Consider them as personal protective devices. Inspect work boots to verify soles are in acceptable condition.
- Establish a monitoring system to spot black ice. Special attention should be given to walking surfaces during early morning hours, at shift change or prior to employee and visitor arrival.
- Provide salt / sand at entrances and expect employees to protect their welfare and the safety of visitors by using it, and not waiting for someone else.
- Do not overlook lobbies and other entrances. Provide a sufficient number of caution or wet floor signs for vulnerable areas. Entrances should have recessed gridding or mats to scrape / clean shoe bottoms. Entrances should be monitored throughout the day and dry moped as needed.
- Transitioning from outside to inside presents different hazards. Pedestrians need to adjust their gait as they move from outside sidewalks to inside flooring. Remind workers to walk with short, deliberate steps where the mid-foot strikes the ground first (not the heel). Eyes must also adjust from outdoor light (and glare) conditions to interior lighting.
- Slips at the heel are the most common slip occurrence. When walking in slippery conditions, the body should be centered over the feet. Pay attention; do not become distracted with your phone, reaching for keys, etc. Avoid walking with your hands in your pockets or carrying large objects. Use railings whenever possible.
- Remind workers to look before getting out of vehicles. If the area is coated with ice, they may want to park in a different spot. Test potentially slippery surfaces by tapping with a foot before committing to them. Use the vehicle for support. Face the vehicle and use the 3-Points of Contact Rule. Always have both hands on the car as stepping into or out of the vehicle.

Police Slipping on Ice - Shift Briefing

Every year police departments in New Jersey experience significant losses from police officers slipping on ice or snow, often when getting out of their patrol vehicles. In 2011, The JIF / MEL system experienced over 100 police officer injuries from slips on ice, totaling over \$1.7M. Responses increase during inclement weather, which means the number of opportunities for a slip-trip and fall also increases. A fall which leads to a back injury can cause a lifetime of pain and limitations. Here are some tips to minimize slip-trip and fall injuries:

Use 3-Points of Contact when exiting / entering vehicles

Much like climbing a ladder, officers should face the vehicle and hold on with both hands as stepping into or out of the vehicle. Only let go of the vehicle when both feet are firmly on the ground or in the vehicle.

• Be aware when positioning vehicles on arrival

Officers have many factors to consider as they approach a scene.

On non-emergency incidents, officers can take a few seconds to best position and park their vehicles. Note the location of potholes, loose surfaces, curbs, and other features that could cause you to loose your footing when exiting the vehicle. Available lighting is another consideration.

On motor vehicle stops, use the PA if necessary to direct the other vehicle to a safe location.

Emergency incidents such as motor vehicle crashes present additional challenges. Officers must make a quick evaluation of the scene as they approach and consider traffic, downed wires, etc. During cold weather, and to the extent possible, officers must also consider icy patches, snow, etc. in your size-up. You can not help if you are injured. Your safety has to be the initial priority and is worth a second or two of consideration as you arrive.

Shoe / boot selection during winter months

Officers may wish to invest in a second pair of boots especially designed for icy conditions. Select a softer plastic sole with an aggressive lug pattern for better traction.

Whether you invest in a second pair or not, if your boots' soles are worn, replace them.

Have a plan for the police station lot and walkways

Work with the local Public Works to make sure the parking lots and sidewalks used by officers are the top priority. Supply salt at the entrances and throughout the lot during winter months. Supervisors and officers must be willing to take immediate actions, such as spreading salt or shoveling sidewalks, to correct unsafe conditions for the officers before Public Works or similar agencies can arrive to take more comprehensive actions.

SMART MOVES TO AVOID FALLING DOWN

Slips, trips & falls account for 15% of all accidental deaths, second only to motor vehicles as a cause of fatalities.

Every 11 seconds, an older adult is treated in the emergency room for a fall.

With our featured course you'll increase awareness of hazards, and learn tips to prevent slips, trips and falling down.

Exiting and Entering Vehicles Safely

Lessons Learned from Losses Monthly Newsletter January 2017

Many employees get injured when getting on and off some of the larger vehicles owned by municipalities. Due to inattention, speed and rushing in an emergency, workers slip and fall when they do not use vehicle steps and handhold devices. Jumps and falls can cause strains and sprains, broken bones and fatalities.

THINGS TO CONSIDER:

- Maintain 3 points of contact at all times. (2 hands and a foot or 2 feet and 1 hand until seated or standing on the ground.)
- Wear shoes with sturdy and non-slip soles and heels.
- Only step on dedicated stepping areas, not fuel tanks and fenders.
- Wear gloves in hot and cold weather to help grip handholds.
- Face the vehicle when getting on or off the vehicle.
- Do not grab the steering wheel unless it is locked.
- Do not grip the door as it can swing out and cause a fall.
- Do not jump down from the vehicle; use all of the steps.
- Vehicles must be clean and as well maintained as possible.
- Examine the ground before stepping out to look for uneven ground, ice or water.

CLAIM EXAMPLES

- Employee entering a truck and grabbed the steering wheel with his left hand to help him into the truck when he felt immediate pain in his neck and arm. This claim involves 2 surgeries and total costs are above \$300,000 because employee pulled himself up with his upper body instead of his legs.
- Employee stepping off of backhoe when the step broke under his weight causing him to fall. This claim also involves 2 surgeries and total costs are over \$106,000. The town was aware of the deteriorated steps, but the repairs were not completed.

Other Things to Keep in Mind:

- § Ice Safety on ponds/lakes for skaters, fisherman, snowmobiles njmel.org > Safety > Safety Bulletins/Checklists > Parks & Recreation > Winter Ice Activities
- § Remember to take pictures after an incident of the vehicle or other damaged items or the scene of the incident. These pictures could make a huge difference in providing coverage or helping the JIF defend your town.

Things to Consider Instead of Another New Year's Resolution

Each January, roughly one in three Americans resolve to better themselves in some way. We make those New Year's Resolutions only to give up on them in a few months, if not sooner. But many times it's because we aren't specific. Take the common goals listed to the right. Lose weight—how much, what are you going to do differently than you've tried before? Why do you want to lose weight? It's hard to keep up the enthusiasm months after you've swept up the confetti, but it's not impossible. This year, try something different...DON'T make a New Year's Resolution. Maybe try one of these instead.

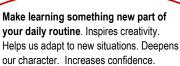

Common New Years Resolutions:

- ⇒ Lose Weight
- ⇒ Get Organized
- ⇒ Spend Less, Save More
- ⇒ Enjoy Life to the Fullest
- ⇒ Staying Fit and Healthy

Special points of interest:

- Rethink your New Year's Resolutions
- What are your ears telling you about your health?
- Are Chia Seeds really healthy?
- No more dieting!
- · Recipe of the month
- · Inspirational quotes

Make a list of the highlights that you can look forward to in 2017. Maybe it's a wedding or a trip you have been planning. Research shows that one of the best predictors of emotional health is the ability to anticipate and savor future pleasures. We all need something to look forward to.

Write a letter to your future self and date it 1/1/2018. Imagine next year at this time looking back on the goals you set forth and seeing your accomplishments. Write down what you want to achieve in 2017. Research shows when we connect with our future self difficult changes can be overcome and goals can be met.

New Year's Resolution Statistics:

- ⇒ 45% of Americans make resolutions
- ⇒ 8% achieve these resolutions
- ⇒ 47% are self improvement related
- ⇒ 38% are weight related
- ⇒ 34% are money related
- ⇒ 14% people over 50 achieve their resolutions
- ⇒ 70% give up within first month

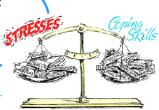

Stop Dieting and Start Living!

(see article on page 3)

Make one change this year to minimize stress. Stress is inevitable. Short bouts can give us an energy boost. But if chronic, it can effect our health. Learn healthy coping methods.

Your Ears Could Be Telling You Something...So Listen Up!

I read an article on Prevention.com that I found to be very interesting and wanted to share some of the highlights with you. Did you know that hearing loss is the third most common health problem in the United States? Neither did I. But I think it's safe to say that we all know how important our ears are to hearing, regulating balance and sending information about your head position to our brain. But everything about your ears, from the way they look to the wax they produce, could actually be telling you something about your general health. Here are a few things to consider:

- ⇒ Studies show that hearing loss is twice as common in diabetics. Adults with pre-diabetes are 30% more likely to experience hearing loss than those with normal blood sugar levels. The link is uncertain but there seems to be a correlation between decreased blood supply to the inner ear and hearing loss. Metabolic changes that occur in diabetics could actually be toxic to the inner ear particularly if ones blood sugar is not properly managed.
- ⇒ Have you ever heard the term "Frank's sign"? It's a diagonal crease that forms on your earlobes which could be a sign of a heart condition. It was named after a researcher, Sanders T. Frank, who called attention to this in 1973. Studies have shown that seeing this crease on people younger than 40 was a predictor of heart disease in up to 80% of the cases. No need to panic, it could just be a wrinkle. But it might be worth mentioning to your doctor at your next examination.
- ⇒ Ear pain could be linked to a disorder of the temporamandibular joint or TMJ. This joint connects your jaw to bones in the front of your ear. TMJ could trigger ear pain when chewing, talking or just opening your month wide.
- Do you experience long bouts of ringing in your ears? If so it could be an indicator of a number of problems from anxiety and depression to high blood pressure. It's common to have some ringing in your ears after a concert. But if the ringing persists longer than normal, it might be a good idea to get it checked.
- Having the sensation of a "plugged" ear is common when your plane lands but it may also occur due to allergies or colds. The Eustachian tube connects your nose to your ears to let air pass between the two. When you are congested due to a cold or allergies, this passage gets irritated causing the sensation of plugged ears. Drinking plenty of fluids and using a humidifier may help.

Health Benefits of "Ch Ch Ch" Chia Seeds

How many of you remember the "Chia Pet"? The clay figurine that came in many shapes and sizes and sprouted it's own grass-like "fur". It was a novelty gift idea years ago and today, many health-conscience consumers are purchasing these seeds for consumption because of their nutritional value. But are they...nutritious, I mean?

Studies have soon that these edible seeds, originating from the desert plant *Salvia hispanica*, are indeed nutritious but to what extent is still not clear. They grow in Mexico and date back to

the Mayan and Aztec cultures who ate them to boost their energy level. They are high in fiber and protein, rich in antioxidants, and packed with alpha-linolenic acid (ALA) which is a plant based omega-3 fatty acid. They are an unprocessed, whole-grain that the body can absorb in seed form (unlike flaxseeds). Two tablespoons of chia seeds contain about 139 calories, 4 grams of protein, 9 grams of (good) fat, 12 grams of carbohydrates and 11 grams of fiber. A pretty powerful punch of value from a little seed! Many people sprinkle them on cereal or yogurt, toss them in sauces, rice dishes, smoothies and baked goods.

Because of their sticky, gelatinous property when mixed with water, they have been used in place of eggs in many baked recipes.

One tablespoon of chia powder dissolved in a 1/4 cup of water = one whole egg

There have been scientific studies done on rats to determine their health benefits. Findings showed a significant reduction in LDL ("bad") cholesterol and triglycerides, and an increase in HDL ("good") cholesterol and omega-3s (as published in the Journal of Biomedicine and Biotechnology). Studies are being done on humans with some preliminary results indicating similar health benefits. So if you have been using chia seeds or contem-

plating the idea, continue or go ahead and start. There is still not enough evidence to confidently label them as "the ultimate super-food" (Tufts University, 2013) but they are good for you. If you want to lose weight and think these little seeds can help, think again. No way around it...you'll need to follow a healthy, calorie-controlled nutrition plan and get more physical activity. Sorry. :-(

Stop the Dieting! Stop the Restrictions! Start Living!

You have heard over and over again "Diets don't work if you want to get weight off and keep it off. You have to make a lifestyle change." We all know it yet we turn to the luring promise of "lose 10 pounds in 10 days". Too good to be true? You're right! If you do lose those 10 pounds, guaranteed you were miserable, starving, felt deprived, and knew it was unsustainable. Chances are you will gain even MORE weight back than you lost!!!

Instead we need to make a lifestyle change. But what does that look or feel like? How do you know when you have finally made one? The way the words are tossed around you might think that once you have decided to "make the change" this magical wisdom will suddenly come upon you that will tell you exactly what, when and how much to eat. Right? Well that never seems to happen. And to tell you the truth, it really isn't your fault. The problem is really all the processed foods that are so readily available, cheap and heavily advertised. But that is a separate topic for another time. Right now, let's see if we can at least determine the difference between a diet mentality and a lifestyle mentality. I hope this will help set you on the right path this year to setting some life changing goals. Make them achievable so you gain some confidence and continue to move forward throughout the year.

A diet is all about *numbers*—the number on the scale and the number of calories you eat and burn. Success is defined in terms of how well you stick to your numbers.

A lifestyle change is all about you. It's about lining up your eating and physical activity with your real goals and desires. Success is defined in terms of how these changes make you feel about yourself.

The diet mentality assumes that reaching a certain weight is the key to finding happiness and solving other problems. That's why messing up the numbers on any given day can be so upsetting—it means you've messed up on just about everything that really matters.

Going on a diet involves an external and temporary change in eating technique. You start counting and measuring; you stop eating some foods and substitute others, based on the rules of whatever diet plan you are using. Maybe you throw in some exercise to burn a few extra calories. You assume that it's the technique that produces the results, not you. The results of a diet are external; if you're lucky, you may change on the outside—but not on the inside. Once you reach your goal weight, you don't need the technique anymore, and things gradually go back to "normal." So does your weight—and then some. And, of course, all the problems you hoped the weight loss would solve are still there.

The lifestyle approach assumes that being overweight is usually the result of other problems, not the cause. Addressing these problems directly is the best way to solve both the problems themselves and your weight issues. This means focusing on many things, not just the numbers on the scale or the Nutrition Tracker. Numbers only tell a small part of the story, and "bad" numbers often provide good clues into areas that need attention.

Making a lifestyle change involves an internal and permanent change in your relationship with food, eating, and physical activity. You recognize that the primary problem isn't what you eat, or even how much you eat, but how and why you eat. Eating mindlessly and impulsively (without intention or awareness) and/or using food to manage your emotions and distract yourself from unpleasant thoughts—this is what really needs to change.

Learning to take good care of yourself emotionally, physically, and spiritually—so that you don't want to use eating to solve problems it really can't-is a lifelong learning process that is constantly changing as your needs and circumstances change.

I'm not Dieting I'm changing my

Make this New Year about a New approach to YOUR health. Take a look at where you want to be next year at this time. Set your goals to achieve them throughout 2017 not by Feb 1st.

My hope is that throughout the year I can bring you information and perhaps some motivation to continue onward towards reaching those goals. And I hope you will reach out to me for support.

Your journey to better health is a matter of attitude. Believe you can and you will! I guarantee it!

Healthier Version of Mac 'n Cheese

This healthy, homemade macaroni and cheese recipe is topped with plenty of golden breadcrumbs. If you want to add a little flair to this healthy macaroni and cheese, use aged Gruyere instead of Cheddar and add extra ingredients like peas, chopped cooked mushrooms or chopped lean protein. This recipe makes more Cream Sauce without the Cream than you'll need for the macaroni and cheese. Refrigerate or freeze the extra sauce and use it in place of heavy cream in any sauce or soup that calls for cream.

Make Ahead Tip: Cover and refrigerate cream sauce for up to 1 week or freeze for up to 3 months. Defrost overnight in the refrigerator or using the defrost setting on your microwave.

Cream Sauce without the Cream

- 1 tablespoon extra-virgin olive oil
- 1 cup finely chopped onion
- 2/₃ cup long- or medium-grain white rice
- 5 cups reduced-sodium chicken broth or "no-chicken" broth
- 1 cup dry white wine
- 1/4 teaspoon salt, or more to taste
- Freshly ground pepper, preferably white

- 8 ounces (2 cups) whole-wheat elbow noodles or other small
- 21/2 cups Cream Sauce without the Cream
- 1 cup shredded sharp Cheddar or Gruyère cheese
- Freshly ground pepper to taste
- 3/4 cup fresh whole-wheat breadcrumbs
- 1/4 cup freshly grated Parmesan cheese
- 2 tablespoons finely chopped parsley
- 1 tablespoon extra-virgin olive oil

To prepare cream sauce; Heat 1 tablespoon oil in a large saucepan over medium heat. Add onion and cook, stirring, until soft but not browned, about 5 minutes. Add rice and cook, stirring, for 2 minutes more. Add broth and wine and bring to a boil. Cover and simmer until the rice is very soft and the liquid is greatly reduced, about 25 minutes. Cool slightly.

Transfer the mixture to a blender and puree, in batches if necessary, until smooth. (Alternatively, puree in the pot with an immersion blender.) The consistency should be similar to a pourable sauce; add more broth or water as needed. Season with ¼ teaspoon salt and pepper, preferably white pepper.

To prepare mac & cheese: Preheat oven to 375°F. Coat a 6-cup (or similar-size) baking dish with cooking spray.

Bring a large pot of water to a boil. Add pasta and cook 3 to 4 minutes less than the package directions. Drain and transfer to the prepared baking dish. Combine 21/2 cups of the Cream Sauce and Cheddar (or Gruyere) in a medium saucepan. Stir over medium heat until melted. Season with pepper and hot sauce. Pour the sauce over the pasta and gently stir to combine. Combine breadcrumbs, Parmesan, parsley and 1 tablespoon oil in a small bowl and sprinkle over the casserole.

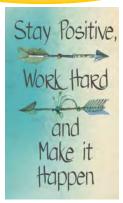

Bake until the top is golden and the sauce is bubbling, about 30 minutes.

Get The Core Facts

Every muscle relies on your abs, hips, and lower back, a.k.a. your core. It's your base—and your center of attraction. Here are some simply yet effective moves to sculpt a rock-solid midsection.

- **1. You can strengthen your core without moving a muscle.** Whereas most muscles propel you, your core resists movement—for instance, to protect your spine when you twist your torso. So don't be surprised by how hard it is to stay still in this core workout. You're conditioning your core to do its job more effectively.
- **2. Slouching sabotages your six-pack.** Training your core helps correct poor posture. But an hour a week of core work can't compensate for the 50 hours spent slumped over your keyboard. The fix: Stay tall through your hips and keep your head up and shoulder blades back and down all day long.
- **3. Core muscles contract first in every exercise.** All the energy you exert originates in your torso, before being transferred to your arms and legs. So a weak core reduces the amount of force you're able to apply to a barbell. When you hit a plateau in presses, squats, or any other strength move, ask yourself if you're training your core as hard as you can.

Here are three exercises to try

Modified V-ups

Lie face up on the floor with your legs straight and your palms planted on the ground at around hip level (having your arms off the ground like in the picture is a little tougher.

In one movement, quickly lift your torso into an upright position as you pull your knees to your chest.

Keeping your hands planted on the ground for support, reverse the movement without lowering your legs the ground. That's one rep. The photo shows a progression of lifting your hands off floor and keeping legs up once you master the modified version.

Circle Plank

Start in a plank position with abs tight. (A) Pull right knee in and circle it clockwise, then (B) counterclockwise. Keep the rest of your body stationary. Repeat five times, and then switch legs. If you cannot do the circles in the beginning, just hold in a plank.

Sliding Pike

Begin in a plank on an uncarpeted floor, hands under shoulders and a towel under feet. With legs straight, raise hips and draw legs toward hands into a pike position—your feet should slide easily. Hold for one count, then return to start. Repeat 10 times. (Furniture sliders work well if you are on carpet.) Picture shows a modified version, keeping hips low and bringing knees in and out.

Subject: January MEL Report

Chairman Rheinhardt: Executive Director presented outgoing Chairman Rheinhardt with an engraved paper weight expressing the MEL's gratitude for his service as Chairman of the MEL in 2015 and 2016 and noted his efforts in restructuring the standing committee charters, the formation of a Management Committee and moving the MEL's investment legislation forward.

25th Anniversary Presentation: The meeting also began with presentations between GenRe and the MEL JIF commemorating 25 years of a very successful partnership. Deputy Executive Director said when he was involved in early MEL commercial marketing efforts, he met with skepticism and suggestions that the MEL was marketing every year – which had the effect of limiting the carriers that would quote. But in reality, the MEL entered into 2 very favorable long time relationships with Munich Re and Genesis. James Dart presented the MEL with an engraved bowl and pedestal with the words "Respect, Trust & Friendship" and added this his experience with the MEL exceeded his expectations.

James J. Kickham: Executive Director said Jim Kickham retired effective December 31st. The MEL Board of Fund Commissioners adopted a Resolution recognizing the significant contribution to the continued success of the Municipal Excess Liability Joint Insurance Fund, the Municipal Excess Liability Residual Claims Fund and the New Jersey Environmental Risk Management Fund – as well as the local affiliated Joint Insurance Funds. In particular, Executive Director said Mr. Kickham was instrumental in putting together the excess and reinsurance programs that are still in place today. Chairman Landolfi added that beyond his insurance knowledge and expertise, Mr. Kickham conducted himself with great integrity both professionally and personally.

Kathie Tyler-Schohl: Executive Director also announced the retirement of Kathie Tyler-Schohl from Qual-Lynx. Kathie managed the MEL's Public Officials/Employment Practices Liability program almost from the beginning. Executive Director said Kathie was so very well versed in the MEL's claims and that she worked so well helping him, the Fund

Attorneys, Claims Committees, Defense Attorneys and Member Municipalities in resolving very difficult claim matters. The MEL Board of Fund Commissioners presented Kathie with an engraved silver plate expressing their appreciation. Ms. Tyler-Schohl said working on the MEL account was one of the more rewarding accounts she worked on and that she enjoyed working on the MEL for the last 26 years.
